# GHEE PLANT

- Ghee Boiler with the Construction of SS 304 / SS 316.
- Better Melting & Evaporation due state of design.
- Agitator for Better Melting.
- Agitator with AC drive for speed variation.
- Steam control Valve for Process control.
- Adjustable ball feet for better piping.
- Sturdy and Rigid construction.
- Hemisphere construction.
- Conical with Laser weld Dimple plate construction.
- Capacities 100 L to 5000 L.
